Basis of Accounting —The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Support and Revenues —The Organization receives its support primarily from private foundations. Support is recognized as granted.

All revenues are considered to be available for unrestricted use unless specifically restricted by the donor. Donor restricted revenues whose restrictions are met in the same reporting period are reported as unrestricted support. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a temporary restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Florida CHAIN had no permanently restricted net assets in 2013 or in 2012.
